

Change your password or update your profile

If you hover the mouse over the Howdy, Your Name, in the upper left of the screen, you will see Edit Your Profile, and Log Out. Selecting Edit Your Profile will bring up your Profile.

Scroll down to the information that you want to update. You can change your password by selecting Generate Password. Type in the password you want in the box to replace the program generated one. If it is Weak, select the Accept Weak Password Button.

You can also enter your park pass information.

Once you have made the changes press the Update Profile at the bottom of the screen. Nothing is changed until you update. A note will appear at the top of the page under Profile saying Profile Updated.

Return to the home page by selecting Evergreen Seniors Outdoor Club in the upper right of the screen or using the back button.
